

Carson Medical Group

## About the Program

Carson Medical Group is now offering Chronic Care Management (CCM), a tool available to Medicare patients who are living with more than one chronic condition. This convenient and streamlined program offers additional support from our team between your regular office visits.

## How To Sign Up

Get in touch with our CCM team today! Email us at [CCM@cmgnv.com](mailto:CCM@cmgnv.com) or call 775-283-5085 to enroll in the program. You can also visit our website for additional information.

Carson Medical Group

# Chronic Care Management Program

## How Does It Work?

You will be appointed an official Care Manager, who will work hand-in-hand with your provider to develop a care plan for you, personalized to your needs and goals. Your Care Manager will not only help you manage your day-to-day health needs, but will also help you with coordinating specialist visits, managing medications, treating your symptoms, and more. Take the guesswork out of your healthcare journey with an advocate you can trust!

## Who Is It For?

The CCM program is available to Carson Medical Group patients who are receiving Medicare benefits and have two or more chronic conditions.

These conditions may include high blood pressure, high cholesterol, arthritis, diabetes, depression, Alzheimer's, cancer, asthma, and many others.

Managing multiple chronic conditions at once can be daunting. Our qualified and empathetic team is dedicated to providing the most concise and effective care possible, communicating between all parties involved.

### Psst! Guess what?

Medicare covers most of the cost for this service! It may even be covered at 100% for those with a Medicare supplement plan!

## How Can You Benefit From CCM?

Our Care Managers will have full access to your medical records and health history, allowing them to work with your provider to formulate the best plan. This added level of support means less stress for you! Allow us to

do the work. We can help with:

- Scheduling appointments
- Requesting refills
- Arranging transportation
- Coordinating between your pharmacy, primary care provider, specialists, lab etc.

At Carson Medical Group, we know life is better for everyone when our patients are healthy and safe. We are here to make that as easy as possible.
