

Medical Care for Your NEWBORN

Carson Medical Group looks forward to caring for your baby after delivery! We offer a "Baby Talk" appointment before your baby's arrival, giving you the opportunity to meet one of our providers and ask any questions you may have about your baby's care. While this appointment is optional, it offers valuable insight. If you have not selected a provider by the time of delivery, one will be assigned to your baby at the hospital.

CALL 775-885-2229 TO SCHEDULE YOUR BABY TALK

For a complete listing of our pediatricians,
visit CarsonMedicalGroup.com/Pediatrics

PROVIDED AT THE HOSPITAL

- Newborn head-to-toe exam and daily check-ins from the CMG on call pediatrician
- Newborn screening tests (see "Baby's First Tests" on page 2 for more info)
- Lactation support
- Recommended medications after delivery:
 - **Vitamin K** to assist the baby's immature liver with clotting (see "Why Does my Baby Need a Vitamin K Injection?" on our [website](#) for more info)
 - **Erythromycin** to prevent bacteria from causing blindness
 - **Hepatitis B Vaccine** first in a series of three vaccines to help prevent hepatitis B

BABY WELL-CHECKS

In the first year, baby well-checks are a routine part of infant care. We plan to see your baby at three to five days of age, two weeks, one/two months, and at four, six, nine, and twelve months.

VACCINATIONS

Carson Medical Group's providers recommend childhood immunizations following the American Academy of Pediatrics standard vaccination schedule to ensure your child's health and well-being. For more information, see our complete [childhood immunization policy](#) on our website.
